

Pattullo Bridge Replacement Project

Upcoming construction activities in Surrey

The following is an overview of upcoming construction activities and traffic pattern changes planned in Surrey for the Pattullo Bridge Replacement Project.

Crews will continue construction of the new bridge off-ramp to Highway 17 westbound and multi-use paths, the new bridge deck, and the new overpass at Old Yale Road. When lane closures and detours are required, work will be done at night where feasible to minimize impacts to drivers. Work that does not impact traffic will generally be performed between 7 a.m. and 10 p.m. Monday to Saturday.

Notifications with more information on each of these activities will be posted on the Project website and distributed in advance. Those who would like to receive email notifications can sign up on the [Project website](#).

1. Foundation work for the new Highway 17 off-ramp and multi-use paths: ongoing into summer 2024

Pile installation is complete and construction of the new Highway 17 off-ramp and multi-use path structures continues. Some closures of Bridge Road, Old Yale Road, and nighttime closures of Highway 17 lanes will be required to complete this work. Detour routes will be in effect while these closures are in place.

2. Roadwork on 112 Avenue: ongoing through summer 2024

Roadwork on 112 Avenue continues with single lane alternating traffic and temporary traffic signals in effect. Crews will be building the new road in summer 2024 which will require nighttime closures. This work will be followed by construction of the new sidewalk and multi-use path.

3. Bridge deck construction for the south approach: ongoing into summer 2024

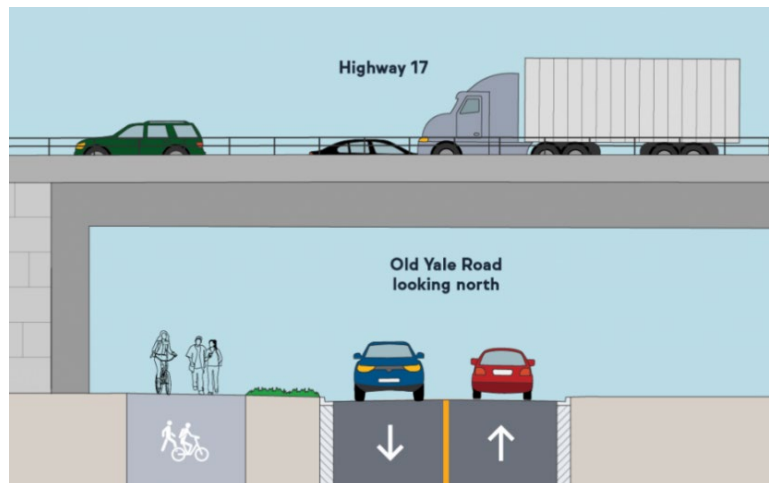

Construction of the south approach (roadway connecting to the new bridge) continues with crews lifting girders and bridge deck panels into place, as well as completing concrete pours and paving to form the bridge deck. Nighttime closures of Highway 17 between Old Yale Road and Bridgeview Drive will be required to complete this work. Nighttime closures of 112/111A Avenue, as well as Bridge Road and Musqueam Drive, will also be required.

4. Ongoing construction of the Highway 17 / Old Yale Road overpass

As part of the Project, Highway 17 will be grade-separated over Old Yale Road, improving traffic flow on Highway 17. Access to and from Highway 17 via Old Yale Road will be removed.

Eastbound Highway 17 traffic: Construction of the eastbound portion of the overpass is complete. In late July 2024, eastbound Highway 17 traffic moved onto the new overpass. Drivers can access or exit Highway 17 at Tannery Road or Bridgeview Drive.

Westbound Highway 17 traffic: Crews are now constructing the westbound portion of the overpass. The Old Yale Road northbound connection to Highway 17 has been permanently removed, and a six-month restriction of the Old Yale Road southbound through movement across Highway 17 is in effect. Once complete, all traffic will be moved onto the Highway 17 overpass over Old Yale Road.
